Vol. XIX No. 1 Arkansas Fiscal Notes July 2005

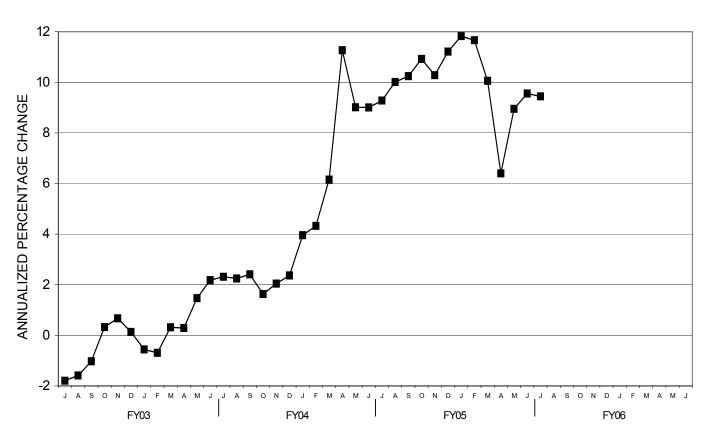

GENERAL REVENUE SUMMARY: July FY 2006

July Gross General Revenues totaled \$357.2 million, an increase of \$25.6 million or 7.7 percent above FY 05. With respect to the general revenue forecast of July 27, 2005, gross general revenues were \$10.5 million or 3.0 percent above forecast.

July Net Available Revenues totaled \$303.9 million, an increase of \$16.0 million or 5.6 percent above last year. Compared to the July 27, 2005 forecast, net available revenues were \$10.3 million or 3.5 percent above forecast.

Net General Revenue Growth. Net general revenues are defined as gross general revenues less individual and corporate income tax refunds. For the twelve-month period ending in July, net general revenues totaled \$4,425.0 million and increased at an annual rate of 9.4 percent. One year ago, the net general revenues increased by 9.3 percent.

ANNUALIZED RATE OF GROWTH IN NET GENERAL REVENUES

July Individual Income Tax Collections totaled \$151.8 million, an increase of \$17.3 million or 12.8 percent above last year and \$7.3 million or 5.0 percent above forecast.

July Income Tax Refunds totaled \$11.0 million, an increase of \$3.8 million or 52.0 percent above last year and \$0.7 million or 7.2 percent above forecast.

July General Revenue Corporate Income Tax Collections totaled \$14.9 million, a decrease of \$1.5 million or 8.9 percent below last year. Collections were \$1.8 million or 10.7 percent below forecast.

July Sales Tax Collections totaled \$139.7 million, an increase of \$4.5 million or 3.3 percent above last year. Sales tax collections were \$2.3 million or 1.6 percent below forecast.

July Use Tax Collections totaled \$29.6 million, an increase of \$4.5 million or 17.8 percent above last year and \$5.8 million or 24.3 percent above forecast.

Use tax collections are dominated by business spending. While equipment used directly in manufacturing is exempt from the sales and use tax, business expenditures on office equipment & furniture, office computers, construction equipment (e.g., earth-moving equipment), refrigeration units, mining equipment, vehicles, and fork-lifts bought or leased from out-of-state vendors are subject to the compensating use tax.

Combined General and Special Revenue Corporate Income Tax Collections. For the twelve-month period ending in July, general and special net corporate income taxes totaled \$276.3 million and increased at an annual rate of 40.6 percent. One year ago, corporate income taxes increased at an annual rate of 4.9 percent.

SPECIAL REVENUES OF NOTE

Special Corporate Income Taxes. Each month \$1.6 million (\$18.8 million total in FY 2006) in corporate income tax collections goes to *special* revenues. These revenues are not included in *general* revenue totals. They are allocated to the WorkForce 2000 Fund, which provides for the upgrading of the post-secondary technical colleges of the state.

Medicaid Program Trust Fund (Soft Drink Tax). July collections totaled \$4.5 million, \$0.1 million more than collections in July FY 2005.

Conservation Fund. The state *general* sales and use tax rate is 4.5%. Effective July 1, 1997, Act 156 of 1997, the Conservation Fund Act, levied a one-eighth of one-cent increase in the sales and use tax rate as a *special* revenue. After deductions, the remaining money is distributed to the Game Protection Fund (45%), the Department of Parks and Tourism (45%), Arkansas Department of Heritage (9%), and the Keep Arkansas Beautiful Fund (1%). In July of FY 2006, \$4.8 million was collected. In July of FY 2005, \$4.4 million was collected.

Property Tax Relief Trust Fund. Acts 1 and 2 of the Second Extraordinary Session of 2000 levied a 0.5% increase in the sales and use tax rate effective January 1, 2001. This increase is *special* revenue dedicated to reimbursing Arkansas counties for the cost of homestead property tax credits created by Amendment 79 to the Arkansas Constitution. In July of FY 2006, \$19.0 million was collected compared to \$17.5 million in FY 2005.

Educational Adequacy Fund. Act 107 of the Second Extraordinary Session of 2003 increased the state sales and use tax rate from 5.125% to 6.0%, effective March 1, 2004. It also expanded the sales and use tax base to new services and increased the wholesale vending tax rate and decal fees, effective July 1, 2004. Act 94 increased the minimum corporate franchise tax and the tax rate, effective for calendar years beginning January 1, 2004. The additional revenues are deposited as *special* revenues to the Educational Adequacy Fund to be used to fulfill the financial obligations of the state to provide an adequate educational system. In July of FY 2006, \$35.2 million was collected compared to \$32.3 million collected in July of FY 2005.

ECONOMIC NOTES

Most Recent Estimate of GDP Growth

Gross Domestic Product is a measure of the nation's output of domestically produced goods and services. The Commerce Department's estimate of real GDP growth uses the chain-weighted measure instead of the fixed weighted measure used previously. The new calculation better reflects yearly price fluctuations.

Quarterly estimates of GDP are released on the following schedule: Advance estimates, based on preliminary and incomplete source data and BEA assumptions about the missing source data, are released in the first month after the end of the quarter. Preliminary and final estimates, which incorporate additional and revised source data, are released in the second and third months, respectively.

This month's estimates reflect revisions in the national income and product accounts (NIPAs) beginning with the first quarter of 2001. Revisions are usually made each July to incorporate source data that are more complete, more detailed, and otherwise more consistent than previously available.

The U.S. economy grew at a 3.4% annual rate in the second quarter of 2005 according to the Commerce Department's advance estimate for GDP growth. This represents a decrease from the previous quarter's growth rate of 3.8%. Real GDP grew 4.2% in 2004. In comparison, GDP grew by 2.7% in 2003, 1.6% in 2002, and 0.8% in 2001.

Among major GDP components, gross private domestic investment declined 0.9% in response to a one-time 2.6% drop in inventories. Imports also declined in the second quarter as part of the inventory correction. Real purchases by the federal government continued to decelerate in the second quarter, with a 1.3% annualized growth contribution to GDP.

Components with higher than average gains included real exports (12.6%), residential fixed investment (9.8%), and nonresidential fixed investment (9.0%).

Quarterly estimates of GDP since the first quarter of 2000, and the annualized growth rates implied by these estimates, are displayed in the graph(s) below.

More detailed information about Gross Domestic Product may be found at the BEA's Web site at www.bea.gov.

REAL GROSS DOMESTIC PRODUCT, 2000-PRESENT

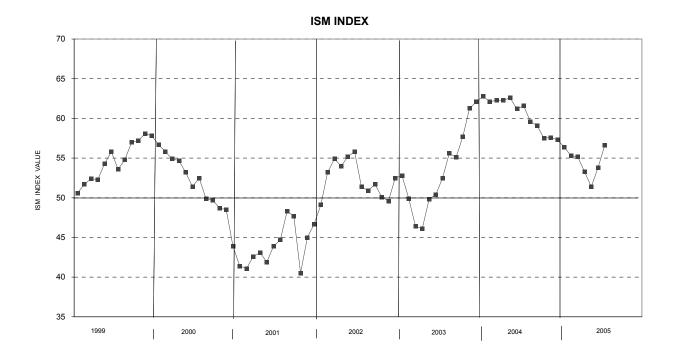

Institute for Supply Management's Purchasing Managers' Index (PMI)

The Institute for Supply Management reported that July's Purchasing Managers' Index rose from 53.8 percent to 56.6 percent, indicating continuing growth in the manufacturing sector. "The manufacturing sector grew for the 26th consecutive month in July based on the ISM data. An improved rate of growth in New Orders and Production continues to drive improvement in the sector. It appears that the sector hit a low point in May, and has rebounded nicely in June and July. The Prices Index apparently reached the end of its run in June, as the July index indicates that pricing power, at least for the short term, is now once again favoring buyers", reported Norbert J. Ore, C.P.M., chair of the Institute for Supply Management's Manufacturing Business Survey Committee.

The 50 percent mark is generally interpreted as the dividing line between growth and contraction in the manufacturing sector. In the overall economy, an index in excess of 42.7 percent, over a period of time, indicates that the overall economy is expanding. According to the broader index, the overall economy grew for the 45th consecutive month in July.

The Purchasing Managers' Index is based on a survey of 300 purchasing officials in a variety of manufacturing industries and gauges improvement or decline in areas such as employment, production, inventory, and new orders. In contrast to the Conference Board's Leading and Coincident Indices, which monitor broad-based economic activity, the Purchasing Managers' Index is more narrowly focused on the manufacturing sector, a sector of particular importance to Arkansas.

The chart below tracks performance of the Purchasing Managers' Index since January 1999.

Labor Force Statistics, Arkansas and the U.S.

The U.S. Bureau of Labor Statistics reported that seasonally adjusted nonagricultural employment in the nation in July grew by 207,000 to a level of 133.8 million. This followed revised job gains of 126,000 in May and 166,000 in June. In July, manufacturing employment was unchanged at a level of 14.3 million. Retail trade employment rose by 50,000. Construction employment rose slightly (+7,000), compared to an average monthly gain year-to-date of 21,000 in 2005 and a similar monthly rate in 2004. The major service-providing industries continued to add jobs, including Professional and Business Services (+33,000) and Education and Health Services (+21,000). A surge of 33,000 jobs was reported for Leisure and Hospitality. Government employment also surged (+26,000), largely as a result of gains at the local government level. The national unemployment rate was essentially unchanged at 5.0 percent.

In Arkansas, the Department of Workforce Services reported that nonagricultural employment rose 11,100 compared to year ago July estimates. Gains on a year ago basis were recorded in Professional and Business Services (+500), Leisure and Hospitality (+1,100), and Education and Health Services (+3,700). Construction employment rose 800 with all of the gain in Specialty Trade Contractors. Manufacturing employment fell by 2,200 as losses in a variety of durable and nondurable goods sectors outweighed gains in Electrical Equipment and Transportation Equipment.

The largest employment losses compared to year ago July levels occurred in Furniture and Related Products (-1,200), Paper and Printing (-400), and Miscellaneous Manufacturing (-300). On a percentage basis, the year ago losses were greatest in Furniture and Related Products (-14.8%) and Miscellaneous Manufacturing (-4.5%). Overall, the state's manufacturing sector has failed to record any net (annual) job gains since the end of the national recession in 2001.

The state's seasonally adjusted unemployment rate rose modestly from 4.8 percent in June to 4.9 percent in July. The current rate is down a more significant 0.8% from July 2004.

SOURCE: Arkansas Employment Security Department.

The graphs on the next page place Arkansas' employment growth patterns in a somewhat longer historical context. The upper graph shows the absolute level of nonagricultural employment in the state. The "raw" or unadjusted data show the seasonality of employment in the state, with sharp drops in employment occurring in January and July, while the "smoothed" data (12-month moving averages) reveal the underlying trends in employment.

Underlying growth trends are portrayed even more clearly in the lower graph, which gives the percentage increase in employment over a 12-month period, based on the smoothed data shown above. After accounting for some seasonal factors, the annualized rate of employment growth in the state was 1.2 percent in July 2005.

ARKANSAS' NONAGRICULTURAL EMPLOYMENT

The table below places Arkansas' employment growth in comparative national perspective. For the 12-month period ending in July 2005, Arkansas' employment rate of growth of 1.2 percent ranked 30th in the nation. Over the same 12-month period, employment in the nation as a whole rose by 1.6 percent.

September 2, 2005 DFA-Office of Budget

FINANCIAL INFORMATION SOURCES STATE OF ARKANSAS

FINANCIAL ORGANIZATIONS AND MANAGEMENT

The following state organizations share responsibility for statewide financial management: The General Assembly, the Office of the Budget and the Office of Accounting of the Department of Finance and Administration, the Governor, the Treasurer, and the Division of Legislative Audit.

The General Assembly has responsibility for legislating the level of state services and appropriating the funds for operations of state agencies. The Office of Budget prepares the Executive Budget with the advice and consent of the Governor. The Office of Budget also monitors the level and type of state expenditures. The Accounting Division has the responsibility for maintaining fund and appropriation control and, through the Pre-audit Section and in conjunction with the State Treasurer, has responsibility for the disbursement process. The Treasurer has responsibility for disbursement, bank reconciliation, and investment of state funds (with the advice of the State Board of Finance). The Division of Legislative Audit has responsibility for performing financial post-audits of state agencies.

BUDGET AND APPROPRIATION PROCESS

State agencies submit biennial budget requests to the Office of Budget of the Department of Finance and Administration. The Office of Budget prepares the Executive Budget based on estimates of general revenues as prepared by the Office of Economic Analysis and Tax Research of DFA. The Executive Budget contains the budget amount recommended by the Governor.

The General Assembly appropriates money after consideration of both the Executive Budget and the revenue estimate. The appropriation process begins in the joint House-Senate Budget Committee and then proceeds through both houses of the General Assembly. Legislative appropriations are subject to the Governor's approval or veto, including the authority of line-item veto.

The General Assembly also must amend the Revenue Stabilization Act to provide for an allotment process of funding appropriations in order to comply with state law prohibiting deficit spending. The Governor may restrict spending below the level of appropriations.

REVENUE STABILIZATION LAW

Act 750 of 1973, as amended, established the State's Revenue Stabilization Law. This law and related legislation govern the administration and distribution of State revenues.

Pursuant to the Stabilization Law, all general and special revenues are deposited into the General Revenue Allotment Account and the Special Revenue Allotment Account according to the type of revenue being deposited. From the General Revenues Fund, 3% of all general revenues are first distributed to the Constitutional Officers Fund and the Central Services Fund to provide support for the States' elected

officials and their staffs and the Department of Finance and Administration.

The balance is then distributed to separate funds proportionately as established by the Stabilization Law. From the Special Revenue Fund, 3% of all special revenues collected by DFA and 1.5% of all special revenues collected by other agencies are first distributed to provide support for the State's elected officials, their staffs, and DFA. The balance is then distributed to the funds for which the special revenues were collected.

Special revenues, which are primarily user taxes, are generally earmarked for the program or agency providing the related services.

General revenues are transformed into funds established and maintained by the Treasurer for major programs and agencies of the state in accordance with fund priorities established by the General Assembly.

According to the Stabilization Law, the General Assembly establishes three levels of priority for general revenue spending, levels "A", "B", and "C". Successive levels of appropriations are funded only in the event sufficient revenues have been generated to fully fund any prior level. Accordingly, appropriations made to programs and agencies are only maximum authorizations to spend. Actual expenditures are limited to the lesser of (1) moneys flowing into a program or agencies' fund maintained by the Treasurer or (2) the maximum appropriation by the General Assembly.

Because state revenues are not collected throughout the year in a pattern consistent with program and agency expenditures, a budget revolving fund, which receives interest earnings for State fund investments, has been established and is utilized to assure proper cash flow during any period.

DEPARTMENT OF FINANCE & ADMINISTRATION DIVISION OF REVENUE

P.O. Box 1272 Little Rock, AR 72203 (501) 682-7000

Commissioner of Revenue	Preston Means
Taxpayer Assistance Office	682-7751
Office of Motor Vehicle	
Office of Excise Tax Administration	682-7200
Office of Income Tax Administration	682-1130

Arkansas State Revenue Tax Quarterly, a quarterly newsletter, is published by the Revenue Division. For more information, contact the Taxpayer Assistance Office.

The Department of Finance and Administration has a home page on the World Wide Web. The page contains several tax forms and useful information. The address is http://www.accessarkansas.org/dfa/. In addition, the Office of Economic Analysis and Tax Research posts this publication, *Arkansas Fiscal Notes*, on the DFA web site. The address is http://www.accessarkansas.org/dfa/revenues budgets.html.

STATEMENT OF GROSS TAX COLLECTIONS GENERAL, SPECIAL, AND TRUST REVENUES

The statement of gross tax collections on the following pages reports only general and special revenues collected by the Revenue Division of the Department of Finance and Administration. Insurance premium taxes are collected by the Insurance Department and the corporate franchise tax by the Office of Secretary of State. The revenues from these two taxes are reported in Tables A and B. In addition to these two offices, general revenues are also collected by other offices, agencies, and commissions, such as the State Auditor, State Securities Board, et al., and are summarized under "Miscellaneous" collections in Tables A and B. A detailed listing of these revenue sources can be found in the *Arkansas Revenue Report* published monthly by the Bureau of Legislative Research, Office of Tax and Economic Policy (tel # 682-1937).

Additionally, the "Gross Receipts" reported on this statement includes sales tax, use tax, beverage excise tax, 10% mixed drink tax, and the gross receipts tax permit.
